

# Alacria Diva

The Alacria Diva has an eye-catching and extra large watch case with characteristic curved sides in which, depending on the model, high-quality precious stones are set. As a result, the watch appears as elegant and slender as if it had been sculpted out of metal. The striking layout of the watch dial as well as the exotic leather and elegant fabric strap all serve to make the Diva an exceptional item of jewellery, one that stands out from the rest.

A watch for women who both know and get what they want.
