

Tribute to Mimi

The Tribute to Mimi is a fresh interpretation of a typical art deco ladies' watch design, as would have been worn in Mimi Bucherer-Heeb's lifetime. This watch uses a manually wound original tonneau-shaped SA 715 movement from the 1920s, as found in storage and painstakingly revised.

The watch case and bracelet are made from top-quality 140 g white gold 18 K and set with 528 Top Wesselton vvs diamonds (totalling 3.15 ct). The precious stones used have all been carefully selected and set by hand in a labour of love. The curved and faceted sapphire crystal lends the watch a particularly feminine look. However, unlike in the '20s, the watch is water-resistant to a depth of 30 metres.

Going your own way - this is part of the philosophy of Carl F. Bucherer since 1919. And it is why we are still an independent family-owned Swiss company today. In the true tradition of the founder, we make no compromise when it comes to highest quality and love of detail. To ensure that the only watch from the heart of Switzerland will remain unique in the future, too.
